three eighths to one half inch. Should the loops be made larger than suggested and more varn is needed, we can supply it by the skein at the price of \$1.80 a pound for the Craft and \$2.40 for the Mudejara.

The prices for stamped patterns and varn sets are as follows:

	Measurements	Pattern	Mudejara Yarn Set	Craft Yarn Set
Mudejara	2½ feet by 3 feet	\$1.40	\$5.50	\$5.50
Pomegranite	3 " " 5 "	2.50	11.00	11.00
Alcazar	3 ""5"	2.50	00.11	11.00
Spanish Scrolls	3 " " 5 "	2.10	11.00	11.00
Deer	21/2 " " 31/2"	1.75	7.50	7.50
Giralda	21/2 " " 3 "	1.25	5.50	5.50

Cotton Fringe in dark blue, rose, or green is supplied at 60c a yard.

The designs called Mudejara and Pomegranite are offered through the courtesy of the "Modern Priscilla."

YARN NEWS

As a number of varn quotations have been changed and various varns added to our lines, a new price list is appended below and this supersedes all previously issued.

We now offer two new yarns-Linen Floss and Mudejara. The Linen Floss is on the order of the Linen Weaver but much heavier; its color line is the same as that of Linen Weaver and in ordering the same color numbers can be used. The purchaser should be careful in this as in all other yarns to state that the quality Linen Floss is wanted. The colors in which it comes are

L210, 220, 205, 206, 201, 203, 217, 218, Black, 239, 223, and white.

The Mudejara is a six ply Homespun yarn that is specially designed for rug hooking and weaving in some cases. It has no regular color line and is only offered in the shades needed for the Spanish rugs but it can be purchased in any quantity.

Besides developing these two yarns, we have made changes in a few of our regular materials. The Afghan worsted is in a new twist which gives more yardage and at the same time is much fluffier than our old yarn—its strength is as great. The new Afghan combined with a Kashmir warp makes stunning dress and ensemble fabric in two color or stripe schemes. The dentage should be 24 to 30 threads to the inch. For border in this sort of fabric a heavier wool or Art Silk is good. The fabric produced is also a delightful drapery material that drapes richly and possesses the quality needed in formal decoration. We now offer the Afghan in the following shade numbers in addition to its regular line:

Colors 564, 818, 13, 15, 527, 795, 799, 735, 596, 755. Several changes are made in Art Silk and Art Silk Warp—first the names themselves are changed and Art Silk is now "Raytone" while Art Silk Warp is "Florelle." The twist of the Raytone is considerably improved and in it are combined all the advantages formerly split between Art Silk and a floss. Its color line is the same. The Florelle is in the compact twist suitable for tabby or warp; to broaden its use we now offer it in a varied color line of shades taken from our Raytone line. The numbers are as follows: No. 202, 245, 205, 242, 217, 220, 237, 210, white, black, 249, and 251.

Chenille is now offered in a group of mixed shades consisting of white with some one color and these mixes are similar to our shade No. 2000. They are as follows: 2792 and white, 2753 and white, 2713 and white, 2627 and white, 2762 and white.

As yet no cards have been made up to cover the above new or changed materials but there will be no difficulty in ordering if the purchaser uses for an aid our already issued cards. We hope to have cards for these yarns as well as other new ones that are in preparation within a few months. At the same time the four Perles will probably be out in a line of near forty-five fast shades.

^{*} Approximate weight or size of skein or tube.

⁽⁾ Pound price in parenthesis are those charged for shipments made up of less than a pound in one color.

V Yarns with checks against them have special sample card either ready for distribution or in preparation.

We have found that confusion sometimes exists as regards price changes and billing methods. To clear these points we give the following explanations:

Firstly—Prices are always subject to change without notice, as we need this protection against shifting market conditions or costs. If a change is made it will either be mentioned on the invoice or shown in our next price list.

Secondly—It is not always possible to have skeins or tubes in exact size as offered. Whenever they are over and under size the billing will be based on the actual weight shipped with no regard to the manner in which the yarn is offered. In this way the charge will be fair.

Thirdly—it is our custom to sell yarns with shipping charges extra. If payment is in advance, please include sufficient to cover postage; for open accounts the postage will appear on bill. It is our practise to insure all parcel post shipments ourselves; for this service there is a charge of four cents on each package and this will be included in the postage billed.

Whenever computing the amount of yarn needed to make anything it is the safest policy to figure over than under. In dyeing it is not always possible to exactly duplicate a previously made color and consequently if our stock runs out on a shade it may not be possible to secure the right color. Small amounts of yarn can always be used in bags, pillows, stripings, and so on, so there is no waste incidental to this method.

With few exceptions our colors are fast to light and washing. Very delicate shades like Baby Pink and Baby Blue cannot be made absolutely fast, however, so great care should be taken with them—in washing only a mild soap and lukewarm water should be used.

At times yarns are in some way unsatisfactory; whether it be through a wrong shade, defects, soiling, uneven color, or any other reason. If this is so, please return them immediately and we shall be more than glad to exchange them for a satisfactory lot. If claims or exchanges are to be made on shortage, under standard in any way, or damaged merchandise please do so before breaking the original yarn form or putting it to any use. Once a skein or tube is broken or yarn is made into goods, we hold ourselves no longer responsible.

We are always glad to open accounts with customers and all that we ask is suitable references. Our terms for open accounts are 2% discount for payment in ten days and net thirty. Orders paid in advance or sent C. O. D. are on net terms.

We shall always deem it a great favor if customers try to have their orders run to \$2.00 or more. The shipment of as little as one skein or tube in a color is always gladly done; what we should like is the aggregate of these small items in one shipment be at least \$2.00. We ask this as there are certain fixed office and shipping expenses that run so high that any order smaller than the amount mentioned is very apt to show a loss. Whatever co-operation is shown will be greatly appreciated and be of inestimable help to us in giving our customers the best of service.

We are at all times glad to help our customers in any way we can. If advice is wanted on the use of yarn, where supplies can be secured that we do not carry and so on, it is only necessary to write us.

Usually the cards sent out on a sample request are our Weavrite and Craft. In the Weavrite we show a general assembly of various materials—in many cases we have a much larger color group or more sizes and we are always glad to send cards covering these to purchasers of our materials. At times a group of yarns will have one color line—if so any card for one of the group yarns is satisfactory for the ordering of another quality in the group. This is true of the Weaving Special, Shetland, Zephyr, Homespun, and Fabri yarns—all of which come in a color line of sixty shades. The Perles No. 3, No. 5, No. 10, and No. 20 now come in an identical group and later will be in an enlarged shade line which also will be identical for the four weights.

When ordering yarn, it is advisable to give as full information as possible. We carry so many sizes and colors, that the smallest error or omission may cause us to make a mistake in shipment. The full name and number of the quality wanted, shade numbers (names if possible) and exact quantities desired should be given. In linen and cottons, always mention whether the natural or white or color is wanted, and if possible avoid asking for "gray" or "cream" when what we call "natural" is wanted.

We hope that all the above will help our customers in ordering with ease and getting the most satisfaction from our yarns. The smoother that things go the surer you will be of satisfaction and the only purpose of the above is to help towards this.
