

CDW Campus Internship

CDW is a leading provider of technology solutions to business, government, education and healthcare entities; founded in 1984, we now employ more than 7,200 coworkers that help our customers select and implement the technology products and services that best meet their unique needs.

As technology continues to shape the way learning outcomes are achieved in Higher Education, we are seeking passionate individuals to help connect IT departments, university administration and CDW so that current and future students get the most out of their college investment. Join the Campus Intern team to gain real world experience with a Fortune 500 company that has been consistently recognized as one of the best places to work in the technology sector.

Internship Benefits

- Build Your Professional Network – Get exposure to IT and sales professionals within the University, CDW and Manufacturer Partners to start networking with industry professionals and technology experts
- Real World Experience – Gain professional experience that will translate into a wide range of fields and support your future career goals
- Flexible Schedule – Be able to balance your academic work load and the CDWG Campus Internship by mapping out your own schedule
- No Commute Required – Explore the IT environment at your University at your convenience, on your own schedule - pick up hours between classes
- Collaboration – Work in a team sales environment and deliver on both personal and team goals

Essential Job Functions

- Challenging, innovative assignments providing an opportunity to gain working knowledge in the areas of IT analytics, desktop services, data management, web development, technical change management, project management, and cyber security
- Shadow professionals in a variety of Information Technology disciplines and to partner with members of the business
- Research and identify campus structure as it pertains to Information Technology
- Educate customers on the CDWG partnership by highlighting the value and expertise offered to the University
- Participate in ongoing professional and technical trainings
- Impact the learning environment and student technology experience by leveraging your student voice in ongoing conversations with IT influencers

Qualifications

- Must be a sophomore or junior pursuing a degree in Information Technology, Information Systems, Computer Science, Management Information Systems or any other related major
- Effective problem-solving skills, analytical aptitude, and the ability to learn quickly and embrace change
- Strong organization and time management skills to work in an independent environment
- Ability to communicate effectively and in a professional manner with all levels of an organization
- Availability to work on campus for 15-25 hour/week within standard business hours
