INTERNSHIPS FOR UNDERREPRESENTED FRESHMAN AT FACEBOOK UNIVERSITY

Apply between **January 1, 2016 and February 29, 2016**

Apply at https://www.facebook.com/careers/university/fbueng

This is an eight-week internship broken down into two weeks of mobile development training in either iOS or Android, followed by six-weeks of hands-on project experience in a small team setting.

Throughout the duration of the program you'll be paired with an engineering mentor who will help guide you along the way.

Responsibilities
- Participate in a mobile development training course
- Work in a team of 3 on mobile projects with a Facebook product team
- Apply current programming knowledge (in C++, Java, PHP or other programming language) and learn new technologies

Requirements
- Current freshman (first-year undergraduate/class of 2019), enrolled in a four-year BA/BS program at a university in the U.S.
- Must have a legal right to work in the U.S. for the duration of the internship
- Demonstrated interest in science and technology
- Available to work in Menlo Park, CA
- Knowledge of at least one programming language (ie: C/C++, Javascript, Java, PHP, Ruby, Python, Lua, etc.)

How to Apply
1. Upload a copy of your resume
2. Upload a copy (unofficial is ok) of your high school Transcripts
3. Upload a copy (unofficial is ok) of your college transcripts
4. Upload your response to the essay question below

   In one page (no specifications in terms of font, spacing, etc.) and in your own words please answer the following question:

   "In what ways has technology changed the world in the last two years?"

The application window for the class of 2016 will open **January 1, 2016 and close February 29, 2016.**
