New Mexico Land of Enchantment

New Mexico is home to three national laboratories, Spaceport America and many of the country's leading research entities. It's the land of enchantment and research opportunities.

AFRL New Mexico offers competitive and challenging internships. It's located in the heart of the Southwest, where you can explore the outdoors and choose a new adventure every weekend.

Internship Benefits

A great start to your career

- Valuable hands-on experience
- Mentorship from experienced AFRL scientists and engineers
- Networking with industry and government leaders and experts
- Developing valuable research skills
- Learn how to present your research
- Understanding and applying research methods, ethics and conduct rules
- Social events and activities
- Housing options available

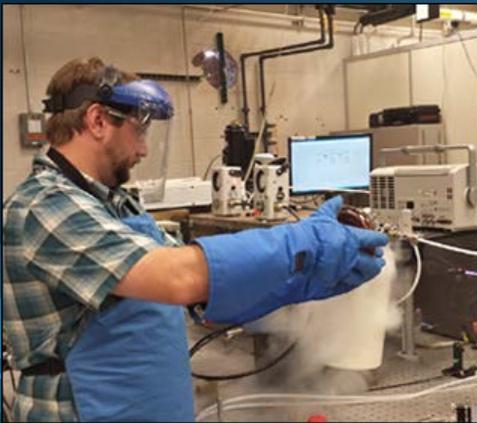

"My favorite aspect of this internship was the hands on experience in the field, learning from experts in my discipline, contributing to a real and long-term revolutionary project.!"

Applications are accepted from early November to mid-January, for 8-12 week internships from late May to Mid-August

ELIGIBILITY

- Must be a U.S. Citizen
- Must be 16 years of age or older
- Available to work full-time
- If selected, security clearances may be required

Don't wait,
limited space available.
